Objective:

Experienced Java Developer with 2+ years of expertise in JAX-RS framework for RESTful API development. Skilled in designing, implementing, and optimizing REST APIs to deliver efficient and scalable solutions.

Skills:

- Programming Languages: Java, Java EE
- Web Technologies: Servlets, JSP
- Database Management: MySQL, PostgreSQL
- Version Control: Git
- Front-End Development: HTML, CSS, JavaScript, Vuejs
- Tools: Maven, Azure pipeline, azure repo, bitbucket, Jenkins and XL deploy, postman, SoapUI, WebSphere liberty server
- IDEs: IntelliJ IDEA, Eclipse
- Web Services: RESTful APIs
- Problem Solving: Strong analytical and debugging skills
- Teamwork: Excellent communication and collaboration abilities
- Agile/Scrum: Experience with Agile development methodologies

Experience:

[Aug 2021 – Present] | **Java Developer |** TATA Consultancy services

- Developed a RESTful API using Java 8 and the JAX-RS framework to meet project requirements.
- Successfully tested the API locally on a WebSphere server using Postman for accurate functionality and performance.
- Collaborated with team members to ensure code met project specifications and received approval from the team lead.
- Implemented Continuous Integration/Continuous Deployment (CI/CD) practices by configuring and managing deployment pipelines using Azure DevOps.
- Contributed to the overall improvement of the development process by optimizing API performance and enhancing code maintainability.

Education:

- 2017-2021 - *Bachelor of Computer Science and Engineering*
   Government College of Technology, Coimbatore

Certifications:

- AZ-900
- DP-900
